The Opel GlobalTIS [v.32.0 B, Multilanguage, 2011] is a computer program that has been designed to help people with their daily life and for this reason it consists of a variety of tools such as the translator and an e-mail sender. It's important to know that this software can run on Windows operating systems only and the installation process must be completed by an administrator or any other person that has Administrator privileges on the system. : Since its release in 2009, the Opel GlobalTIS [v.32. 0 B, Multilanguage, 2011] has been subject of many reviews and opinions. The software has been reviewed by several websites such as Advanced PCTuner or TheBitFix.com that praised the fact that the translator can now be used to translate a sentence from a total of 43 languages and it's extremely easy to install and use. : You can see a full list of compatible operating systems for this software at the official download page : http://global-tis.com/index_e.php?l=content/downloads&p=1&lang=en&mod=add During installation, you will have to choose which applications you want to run on your system. It's important to know that you will have to restart your system after installing the Opel Global TIS. : When the software is being installed, it may happen that a message will be displayed saying 'The system cannot find the file specified'. In case this occurs, you will have to delete the C:\\windows\\SysWOW64\\stobject.dll or C:\\windows\\System32\\stobject.dll files and then run the installation again .With a little luck, this message will not occur at all , but if it does it's a easy fix to a common problem . : Opel GlobalTIS [v.32. 0 B, Multilanguage, 2011] comes with a separate uninstaller. This is very useful because at the time of uninstalling the software it's possible to select each and every application that you've chosen during installation and then remove them from your system. It's also worth mentioning that the uninstaller is exceptionally easy to use and anyone can make use of it. : In case you want to understand what this software can do for you or what it looks like, you can watch a short video presentation on youtube by typing 'opel global tis' in Google . Also, if you'd like to try out the Opel GlobalTIS [v.32. 0 B, Multilanguage, 2011] for yourself before purchase, you can use a free online demo version here: http://global-tis.com/index_e.php?l=ext_downloads The software is available for download from these 3 web sites:

Opel GlobalTIS [v.32. 0 B, Multilanguage, 2011] requires Windows operating systems to be installed on it and it's essential to have Administrator privileges on your system so as to properly install the software and take advantage of the full potential of the program .
